

# JOHN MCASLAN + PARTNERS

Supplier name: John McAslan + Partners Ltd

Publication date: 3<sup>rd</sup> February 2026

John McAslan + Partners Ltd is committed to achieving Net Zero emissions by 2050

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2024</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
1. Please note there has been no previous reporting and therefore this will be the first year and baseline. 2. Our reporting year follows our financial year to allow for ease of reporting and comparable years. Financial year runs from 1st November to 31st October. 3. Our baseline year is therefore 2024 (1st Nov 2023 to 31st October 2024) 4. We are not required under legislation to report our carbon reduction plan; this is voluntary 5. Our KPI's are a) Waste b) Materials and Resource Efficiency c) Emissions to Air, Land, Water	
<b>Baseline year emissions: 2024 (1st November 2023 to 31st October 2024)</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	4.93
<b>Scope 2</b>	6.22
<b>Scope 3 (Included Sources)</b>	834.31
<b>Total Emissions</b>	844.94

## Current Emissions Reporting

Reporting Year: 2025 (1st November 2024 to 31st October 2025)	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	3.5
Scope 2	5.72
Scope 3 (Included Sources)	521.64
<b>Total Emissions</b>	<b>530.86</b>

Please note that emissions reporting for the reporting year will be published no later than 28<sup>th</sup> February of the following year.

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next nine years to 40,000 tCO<sub>2</sub>e by 2025. This is a reduction of 53% from the baseline reporting year. We then commit to reduce to 0 (zero) tCO<sub>2</sub>e by 2050.

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2024 baseline. The carbon emission reduction achieved by these schemes equate to 314.08 tCO<sub>2</sub>e, a **37.18%**ge reduction against the 2024 baseline and the measures will be in effect when performing the contract

Renewal of the ISO 14001 Environmental management standard

Further implementation & embedding of LCA - One Click (Life Cycle Analysis) software.

# JOHN MCASLAN + PARTNERS

We are actively & continuously reviewing projects within design stages to assess methodologies, materials and construction methods and use the most sustainable appropriate approach. We are review all staff travel for business to assess whether meetings are required to be in person or can be delivered remotely, to reduce air and vehicle transport where possible. In the coming year (2025-2026) we aim to reform the IT architecture in all of our offices to remove and recycle all unnecessary hardware, to reduce future purchasing by reducing the number of devices required and to reform the remote connection system so that devices can be powered off when not in use.

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

## Signed on behalf of the Supplier:
